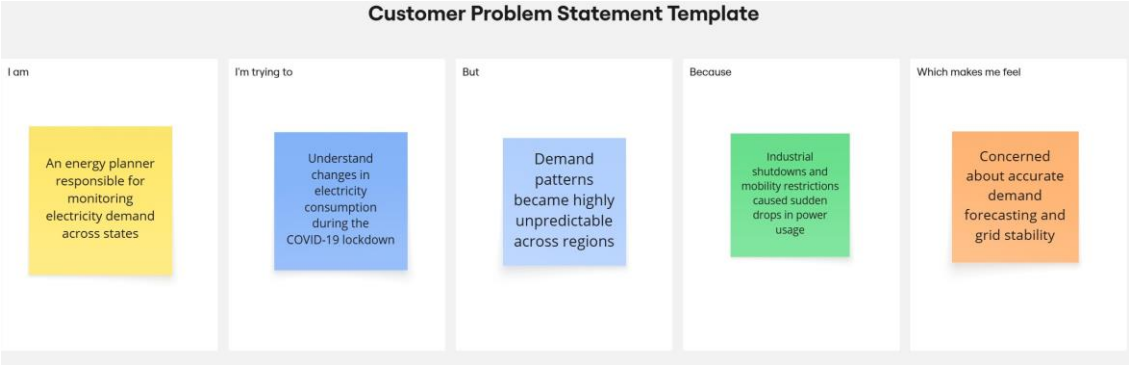
Project Name	Electricity Consumption
Maximum Marks	2 Marks



Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An energy planner responsible for monitoring electricity demand across states	Understand changes in electricity consumption during the COVID-19 lockdown	Demand patterns became highly unpredictable across regions	Industrial shutdowns and mobility restrictions caused sudden drops in power usage	Concerned about accurate demand forecasting and grid stability
PS-2	A policy maker analyzing post-lockdown electricity demand recovery	Evaluate how different states are recovering after the lockdown	Recovery rates vary significantly across regions	Economic activity, industrial presence, and population density differ from state to state	Challenged in designing uniform policies and motivated to adopt region-specific strategies
